

*Every day, we concentrate our energy in the hope of staying the most outstanding partners to our clients. It is for this reason that we have put in place some rigorous processes that favours quality, the respect of deadlines and exceeding expectations at all levels.*

## WHO ARE WE?

King has been recognised as a quality provider for the past 15 years.

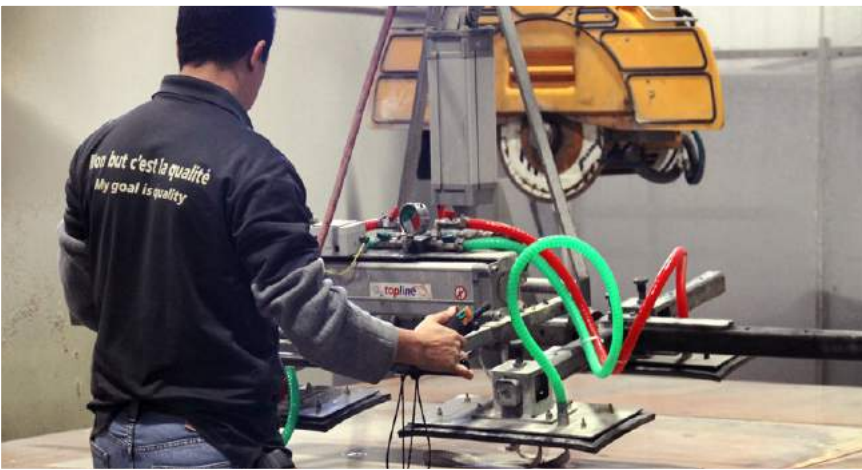

We have always based our growth with the values of **respect, professionalism, innovation** and **honesty**. Which means the most important thing in our eyes, is to develop strong and durable business relations with our customers.

To this day, our installations are among the most modern in Quebec. Furthermore, we are a socially responsible company who does its part for the environment. For example, we recycle all the water that we use during the production process so we do not waste this precious natural resource.

It is by consistently looking for excellence that we gain our clients trust.

*The fabrication of a stone piece is truly a work of art.*

## OUR SERVICES

### Designer services

The first step towards the realisation of your project is to properly identify your needs as well as your expectations. Our team of professionals are there at your disposition to help you properly choose the different options that are available to you.

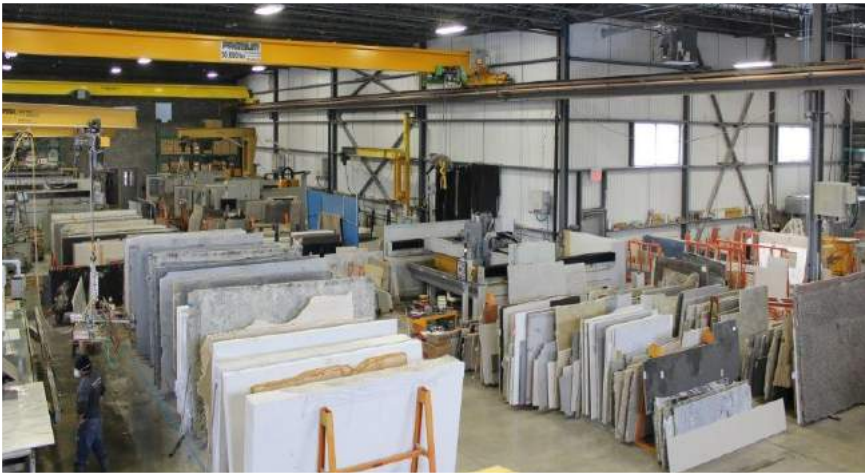

### Production

KING distinguish itself by the exceptional quality of its installations. Your stone surface is worked on at our Saint-Rémi factory. Furthermore, we perfect at the smallest detail your surfaces thanks to our own advanced technology.

### Installations

Our team of experts are in charge of the delivery and installation process and assure the delivery of a final product that answers the highest quality, reliability and precision standards

## WHY KING ?

Because our principal objective is to become a leader in the industry by going beyond the established standards and by continuously improving our working ways.

It is for this reason that our factory is one of the most modern in the market. We produce in place all of our stone surfaces. Furthermore, we perfect at the smallest detail your surfaces thanks to our own top notch technology. This is a list of our highly specialized machinery:
